Status of the Claims

Claims 1-8 have been presented for examination.

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-7, drawn to a method of treating glaucoma with a composition comprising a caspase binding agent and a vector, classified in class 514, subclass 17.
- II. Claim 8, drawn to method of treating glaucoma with a composition comprising a caspase inhibitor and a vector, unclassifiable because no specific inhibitor structure is set forth.

The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions are drawn to the use of totally different kinds of reagents as discussed at length in the disclosure. Mainly S-nitrosylated compounds are the inhibitors contemplated, while the binding agents are small peptides having the QACRG sequence (page 2, lines 29-30). These compounds act in different ways. The peptides block action on the target sequence, while the nitrosylated compounds inhibit the enzyme directly.

Art Unit: 1651

Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II, restriction for examination purposes as indicated is proper.

A telephone call was made to John Freeman on 03 November 2003 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jon P Weber, Ph.D. whose telephone number is 703-308-4015. The examiner can normally be reached on daily, off 1st Fri, 9/5/4.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Michael G. Wityshyn can be reached on 703-308-4743. The fax phone number for the organization where this application or proceeding is assigned is (703) 872-9306.
